

Municipality Town of Coleman

May 17th, 1926.
To Ratepayers of the Town of Coleman.

In a recent issue of The Coleman Journal, statement was made that the Town Council last year paid to bank for interest on borrowed money to carry delinquent tax payments the sum of \$600.00. This statement I wish to contradict, the actual sum paid for this purpose for five years ended 1925, is \$38.70.

W. J. Burns
MAYOR.

The Auditor Says We Did
The Mayor Says (?)

Mayor Burns, in the above bald statement, is attempting to cast serious reflections on the authenticity of—not The Journal—but the auditor's report for the year ended December 31st, 1925. The figures quoted in our article last week under the caption "Arrears of Taxes Need Attention," were taken from the auditor's report as published in this paper a few weeks ago. If Mayor Burns now says the figures are wrong, why did he hand it out for publication? This report was in the hands of the council for over six weeks before it was published, ample time in which to survey it very carefully.

The figure of \$600.00 used by The Journal last week were not our figures. They appeared in the auditor's report under the heading of expenditure and stated as plainly as words and figures can that \$447.55 (to be exact) had been paid out by the town in interest and exchange. The Journal very generously set aside the \$447.55 to take care of exchange, leaving \$600.00 as having been paid the bank in interest on borrowed money.

Will Mayor Burns state specifically that this \$600.00 was NOT paid out by the town in interest on borrowed money to either the bank or private individuals? It is a very serious matter for even the Mayor to question the veracity of an auditor's report. If one cannot place confidence in reports of this nature what is the use of going to the expense of having them prepared.

The Journal's opinion in regard to the matter is that Mayor Burns in his blunt statement is leaving himself a loop-hole in the word "bank" to crawl out and save his face, as there is not even a shadow of doubt in our mind but what the figure given in the auditor's report is the correct one.

For Mayor Burns enlightenment, we might state in passing, that this is not the first instance that has come to our notice where he has attempted to shift the blame on to other shoulders, when municipal affairs have not turned out to his liking.

MARRIED

BOUTRY—DEVIGNAT

A pretty wedding was solemnized at the Holy Ghost Church, Coleman, on Saturday, May 15th, when Georgine, daughter of Mr. and Mrs. Gustav Devignat, 6th street, became the bride of Mr. Nestor Boutry, of Seattle, Wash.

Rev. Father McCormick officiated and the witnesses were Mr. B. Boutry, brother of the groom and Miss Annie Royko.

The young couple are well known locally and have the best wishes of many friends for a happy married life in their new home in Seattle.

SCOUT NEWS

Come On Out!

Addressing the National Council of the Boy Scouts of America recently, President Coolidge gave expression to the following pithy remarks:

"The Boy Scouts movement can never be a success as a substitute, but only as an ally of strict parental control and family life under religious influences."

"Parents cannot shift their responsibility," he added. "If they fail to exercise proper control, nobody else can do it for them."

"If every boy in the United States between the ages of 12 and 17 could be placed under the wholesome influences of the Scout movement and should live up to the Scout oath and rules, we would hear fewer pessimistic words as to the future of our nation," he added.

No. 2 Troop of Coleman went for a hike to "Scout Cave" last Friday where they held a "camp fire meet" and had some rush to get back for the first aid class.

No. 1 and 2 Troops are making fine progress in their joint classes every Tuesday night. Physical training and signalling occupying the two hours.

A special track is being arranged for the 24th. A meet will be held at the Scout hall for a secret rendezvous. The Scout car will be taken.

No. 1 Troop first aid class will in future be on Thursdays at 7 p.m.

Coleman boys of No. 2 Troop successfully passed their elementary first aid tests. The examiner was Mr. A. Kay, assisted by Mr. R. Greenhalgh. The above results speak well for the personal interest of the boys in this practical work as well as for their instructor, Mr. Kerr. The examiners found promising material for the first aid work in the St. John Ambulance competition on July 1st.

The Officers and Scouts of No. 2 Troop wish to kindly thank the Rev. L. Nobbs for the loan of flags for the parade on May 10th. They also wish to convey their hearty appreciation to the McGillivray Pipe Band for their services, which greatly helped to enliven the proceedings.

All the boys of No. 1 Troop are making good progress in obtaining their uniforms. More work is urgently needed to enable some of the boys to earn their suits.

No. 2 Troop played their first game of baseball against Bellevue at Coleman on Wednesday, resulting in a win for Coleman 2-1. Rain halted the game at the end of the 4th, so it will have to be replayed.

The regular meet of No. 1 Troop will be on Friday at 8 p.m. Business tracking.

Mr. Tom Morgan and Miss Gladys Morgan are the guests of their uncle and aunt, Mr. and Mrs. George Morgan for a few days this week. They made the journey from Vancouver by motor over the Red Trail and report having had a delightful trip. Mr. Morgan and his sister will spend a short time in The Pass visiting various relatives before commencing their return trip, going by way of Calgary and Banff then over the Windermere trail to Cranbrook and back to Vancouver.

Sunday Afternoon Band Concert
Program in Flummerfelt Park

Following is the program to be rendered by the Coleman Town Band at their concert in Flummerfelt Park on Sunday afternoon, commencing at 3 o'clock. A silver collection will be taken. A big nickle has a smooth edge, so don't mistake it for a quarter:—

O. CANADA	
March	Easy Does It
Selection	Hiawatha
Euphonium Solo	Skipper
March	Always Ready
Selection	Memories of Britain
Fantasy	The Old Rustic Bridge
March	Soldier's Delight
Selection	English Songs
March	Farmer's Boy
"God Save The King"	
Conductor	Jas. Pearson

The Power of Printers' Ink.

Some of our Town and School Board officials, who still believe in the Totem Pole Method of advertising, in vogue amongst the Indians of North America before Columbus discovered this continent, ought to have been at Quimette's Close Out Sale yesterday morning, when they would have received, free of charge, a liberal education on the pulling power of Printers' Ink judiciously used for publicity purposes.

Hundreds of people, from far and near, literally jammed the store a few minutes after the opening hour at 9 a.m. and it was found necessary to lock the front doors at intervals, so dense was the crowd inside the building, and the purchases through the back exit.

The rush kept up practically the entire day and from prospects at this writing this great sale bids fair to eclipse anything of its kind ever held in Coleman or at any other town in The Pass.

Hundreds of splendid bargains were snapped up on the opening day, and according to the Man in Charge, hundreds more will be offered to the public each day until the entire stock, including the fixtures, is sold.

Women's Institute
Hold Monthly Meeting

The regular meeting of the W.I. was held at the home of Mrs. D.K. Allan on Monday evening, May 17th. There were thirteen ladies present. It was decided to cater to the dance in the Arena on June 3rd, (King's Birthday).

The Millinery course which was applied for will be held July 9th to 12th. All ladies in town desirous of taking this course please leave their names and get any information desired, from Mrs. McLeod, President, or Mrs. Bosworth, Secretary. These officers would like to have the names as soon as possible so they will know what accommodation to make.

Roll call was answered by an interesting fact about Canada. Mrs. D. K. Allan gave a very interesting paper on Canadianization which was greatly enjoyed by all. Mrs. McLeod expertly demonstrated the way to make a button hole.

The next meeting will be a social affair and will be held at the home of Mrs. R. Evans on June 22nd. Members at this meeting will answer roll call by telling a joke.

Mr. and Mrs. Norman Smith, of Lethbridge, motored to Coleman on Saturday last and spent the week-end with relatives and visited Crow's Nest Lake.

Car Strikes Pedestrian

An unfortunate accident happened late yesterday afternoon at the corner of Main Street and Central Avenue, when a car driven by Rev. R. J. Donovan, of Bellevue, struck John Berlin, knocking him down and inflicting serious injury to his head.

It appears that Mr. Donovan was bringing the members of a juvenile baseball team to Coleman to play the local boys, and in making the turn from Main Street to go up Central Avenue he collided with the unfortunate man. He was not travelling very fast, and immediately stopped the car and helped to carry Mr. Berlin to the hospital.

In conversation with Mr. Donovan the Journal was greatly regretted the affair, and thought that if he had thrown on his brake a few seconds earlier it might have been avoided, but owing to the fact that he had only been driving a car a little over a week, his hand did not coordinate with his mind quite as quickly as is the case with a more experienced driver.

The District First Aid competition which is to be held at Coleman on July 1st on the sports ground, if weather favourable, and if not in the Arena, has every indication of being a most successful competition due to the most generous cooperation of those persons interested in First Aid work in the district. Up to date 8 senior and 7 junior teams have entered. In addition to the three grand prizes to be awarded to the first, second and third successful teams, all the juniors competing will be awarded a prize. There will also be a dinner and at night at the close of the competition a grand banquet for all competitors, officers, executive committee, and others of the District Association. The prizes will be presented at night in the Arena. The officers of the Association are: President, Moses Johnson; Vice-President, D. Davidson; Sec.-Treas, Ed Royle.

Publicity for Alberta

The Journal this week, in conjunction with all newspapers who are members of the Alberta Press Association, is donating a page of its space to the worthy cause of giving wide spread publicity to the agricultural, mineral and manufacturing status of this fair province in which we live, together with data showing the wonderful strides made in all branches during recent years. This united effort on the part of the press of Alberta will undoubtedly have the effect of further stimulating the growth and prosperity of this, one of the Dominion's juvenile members of our great and glorious commonwealth.

Grading of Town's Residential
Streets Decided Improvement

Commendation is due the Town Council for the work done so far this year on the residential streets in Coleman, and though some of these thoroughfares are yet far from being in good condition, a splendid start has been made. With additional grading from time to time, most of these streets will soon present a very pleasing appearance.

The C. G. I. T. girls were hostesses to their mothers at a banquet held in St. Paul's United Church club rooms on Tuesday evening of this week. The banquet was a real one in every respect, including a varied and tasty menu, toasts ably offered and responded to by members of the club. The mothers of the girls, who were the guests of the evening, report enjoying the affair immensely.

Being "For" Coleman

To be "for" Coleman means putting your best thought into the measure that come before the public conscience.

No amount of words alone will put the finishing touches on good works.

If, in your judgment, the proposals for public improvement and community development are worthy of the aims of highest citizenship, and if those proposals are within the limits of sound public finance and prudent management of the people's affairs, then you are not strictly "for" Coleman unless you put 100 per cent of your ability into their realization.

There is no man who can not do his best under any given set of circumstances.

LOCAL, PERSONAL
AND
GENERAL NEWS

Mrs. T. Johnson, Sr., 6th Street, left on Tuesday's local for an extended visit to Calgary and Drumheller.

The adjourned session of the Alberta legislature convenes on Thursday.

The many friends of Mr. T. Johnson, Sr., are pleased to see him back home for several weeks through illness.

Hillcrest won from Fernie at Fernie by 3-1 in a league football game at Fernie on Sunday, and Michel defeated Coal Creek by the same score at Michel in Crow League fixtures.

The Prize Draw for the benefit of the Alberta Crow's Nest Pass First Aid Association will take place in public at a Banquet at Bellevue given by the Bellevue Local Association of the St. John Ambulance Association on or about May 25th. At the same time the First Aid Certificates issued by the St. John Ambulance Association and the Industrial Service First Aid certificate issued by the Workmen's Compensation Board of Alberta will be presented to the successful candidates of this year's Bellevue and Blairmore First Aid classes. This will close the most successful winter's First Aid classes ever known in this part of the Crow's Nest Pass. Classes having been held at Hillcrest, Bellevue, Blairmore and Coleman. A total of 135 men and boys having passed for certificates.

Mr. J. Haining, one of Coleman's well known amateur photographers, has been awarded the high honor of having one of his pictures hung in the second Seattle Exhibition of Pictorial Photography, which is held under the auspices of the Seattle Camera Club. This club received over 500 pictures from various parts of the world, and 193 of the best were vied on view at the exhibition. "Snow Cap" is the title of the picture sent by Mr. Haining, being a winter scene of Crow's Nest Mountain.

Mrs. Hall, who has been the guest of her daughter, Mrs. Goldring for several months, is leaving this week to visit her son at Ford, Ont.

Mrs. J. Burnett, Sr., and Mrs. Joe Burnett, Jr., who have been staying with Mr. K. Foster, returned to their home in Lethbridge, on Wednesday of this week.

Many of our readers will be interested to know that Mr. T. M. Parry, of Coleman, has successfully passed his exams on all subjects at the Alberta University in his second term as a student for electrical engineering. During his summer vacation he has accepted a position as stockman at the Sutherland garage.

The following team chosen from the five football clubs in the Crow League are playing a trial match with Lethbridge on Monday, May 24th, in Lethbridge:—Ford (Coleman), goal; Jenkins (Michel) and Corrigan (Coal Creek), backs; K. McFarlane (Michel), back; Brough (Hillcrest) and Mitchell (Michel), halves; Corlett (Coal Creek), J. Lugdale (Hillcrest), McVey (Hillcrest), Sharp (Coleman), and Page (Coleman). Lethbridge is arranging for a special train from the Crow on June 9th, when the English football team play in the prime city.

A Sure Cure for Insomnia
"M'Donald—"I've found the cure for insomnia."

"M'Donald—"Is that so?"
"M'Donald—"Ay, I ha's a bottle n' a glass at my bedside. If the first glass diana' work I tak' another, then a third—after that I dinnas care if I sleep or no."

Capt. Jos. T. Shaw, the new leader of the Liberal party in Alberta, is receiving a large amount of praise from the press of the province, and judging from his past record and recent pronouncements on provincial political issues; he is justly entitled to it.

Blairmore golfers are to be the guests of the Coleman Golf Club in a friendly tournament on Sunday.

President Pete Smith of the Coleman G. W. V. A., has been appointed a delegate from the local branch to attend the G. W. V. A. convention in Calgary on June 2nd and 3rd. The question of forming a branch of the British Empire Service League, to be known as the Canadian Legion, comes up at this gathering of returned men.

RELEASE "is good COFFEE"

Britain Not Bolshevistic

One of the most remarkable, and at the same time most satisfactory, features of the great strike in Great Britain is the way in which the people kept their tempers and passions under control. With millions of men on strike, and many millions more dependent on them for support, and all feeling more or less bitter against the Government and those throughout the country opposed to the strike, it is little short of the miraculous that rioting and insubordination in excess of all kinds was not general.

Then, too, the strike imposed discomforts, inconvenience, and in some cases even hardship on every other citizen. Had strong tempers and the volume of bitter complaints and the development of bitterness of all kinds, been the rule it would not have been surprising. It would have been expected in almost any country. But despite any and all provocation the people of Britain kept their heads, remaining, with few exceptions, calm and untroubled.

It speaks volumes for the sturdy character of the British people, and their inherent dignity, that they have thus "played the game." Grim and determined as both sides to the dispute proved themselves to be they were battle for a principle, and the strikers in more ways than one proved the truth of their assertion that they were not fighting Britain, but for the country they conceived to be the highest and truest interests of the country. British labor in this struggle—the greatest in the history of the country—demonstrated that it is not Communistic nor Bolshevistic.

The "Reds" in Russia welcomed the British strike with unceasing joy. For years they have been striving to convert the British worker to Communism. They have desired the overthrow of the present form of government and have contemplated and intended to bring about a Soviet republic in Britain. The Moscow "Reds" thought success was in sight and promptly effected in millions of roubles to assist the British strikers. The money was just as promptly declined by the British labor leaders. British labor had an issue to fight out with the Government, but they had no desire nor intention of destroying the Government. The strike, they will have served at least one valuable purpose in this proving to the world the inherent loyalty and sense of the rank and file of British people.

Undoubtedly the British Government and the overwhelming majority of the people are in full sympathy with the desire of the strikers for the creation of the best possible working conditions, hours of labor and pay. There is no difference of opinion as to the desirability and necessity of solving the coal mining problem in the British Isles. Where the Government and the majority took issue with the strikers was in the method adopted by the latter to enforce their own views and opinions upon the country, namely, through a general strike to deprive all people of the conveniences and necessities of life and thus force them into submission.

If there is one national characteristic of the British race it is their love of freedom and fair play. They will not be forced, nor bow to deflation. And the strikers made an irreparable blunder when they sought by depriving all the people of means of transportation and other essential services to force compliance with their own wishes. It is not "fair play" to impose discomfort, loss and suffering upon innocent millions of people in order to "get at" those in authority with whom the strikers had a quarrel. This smacked too much of German military methods inflicted upon innocent Belgium in order to strike a blow at France.

Forms in the coal industry were effected as quickly as possible. They were rejected and the assumption upon which the strikers based their action was necessary to take them by the throat and force them into submission.

Methods which may appeal to Soviet Russia are not acceptable to the liberty-loving Anglo-Saxon. This was well established in the One Big Union strike in Winnipeg a few years ago. It has again been proven on a much larger scale in the British general strike. The British workers proved their loyalty to Britain by refusing Soviet money, and by their declaration that they were engaged in a purely domestic struggle which in no way involved their national honor. But they made a mistake in adopting Soviet strong arm methods in waging their domestic battle.

The result of the struggle is to establish that the British people, including the great mass of British Union labor, are in no danger of accepting the ill-considered theories and quick remedies of Bolshevistic Russia and Communistic democracies throughout the world.

Cancer Takes Heavy Toll

Death Rate From This Disease Said To Be Increasing

The increase in deaths from cancer in Ontario and the rest of the Dominion has been alarming, the committee of cancer reported to the Ontario Health Officers' Association.

"Not only have the total number of deaths from cancer in Ontario increased generally, but the rate per hundred thousand of population and the percentage of cancer to deaths, all over the continent, has increased alarmingly," the report said.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Gray's Worm Exterminator.

Treasure Hunt Was Profitable

Fort William Boy Found Jewelry Valued At \$1,000

Dusted treasure brought reward and prominence to Harvey Shable, an 11-year-old Fort William boy. Starting a treasure hunt near his home, Harvey unearthed jewelry valued at \$1,000 and immediately turned it over to the police. He found it under a sidewalk near his home. The treasure was identified as part of the loot taken in a \$3,000 robbery there. The robbers were never apprehended.

Making Use Of Geysers

Town in Iceland Uses Water To Heat Houses

The wonderful geysers of Reykjavik, in Iceland, are now being used to heat the town and its warm water greenhouses and gardens.

Water from the geysers is forced through narrow pipes laid at a depth of about three feet in the soil, and the warm water favors the growth of both vegetables and fruits.

Near the largest geyser a very large greenhouse has been built, where all kinds of flowers and vegetables are being cultivated with extraordinary success. It is possible, indeed, that with the assistance of its geysers Iceland will be able to compete with the Channel Islands as a purveyor of early potatoes and flowers.

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip To Tint or Boil to Dye

Each 15-cent package contains directions to simple any woman can tint soft, delicate shades of red, pink, orange, yellow, blue, green, brown, black, and white. Colors in lingerie, coats, stockings, sweaters, draperies, coverings, hangings, everything!

Day Diamond Dye—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Find Large Munition Dump

Concealed Behind False Wall Escaped First Search By Dublin Police

A munition dump, one of the largest ever found, was recently discovered by Dublin detectives behind a false wall in a stable in Nene Street, Dublin.

It contained nearly 300 live bombs, 5,000 rounds of rifle ammunition, 10,000 detonators, and two tons of high explosives, including cordite and gelignite. Many spent bombs and a quantity of machinery were also found. Some of the boards of the wall were removed, revealing a large chamber, the floor of which was made of concrete.

It was found that the dump had been used by a group of men who had escaped from the Mountjoy Prison about four months ago, had been searched recently by the police; who found nothing.

Weezy Chest Colds

Subdued Over Night

Trained Nurse Tells How Colds Are Quickly Broken Up

Speaking of valuable home remedies that every mother should know on hand, Nurse Carrington says: "I haven't met any preparation more dependable than Nerville's. It is the ideal liniment; every drop rubs in leaves comfort in a short time. It cures chest colds, pain in the side, stiff neck, headache and toothache. It is Nerville's liniment. In trouble found minor ills that arise in every home, Nerville's is a most efficient than Nerville's."

For nearly fifty years Nerville's has been a household article in thousands of Canadian homes. Get a 35c. bottle to-day.

NERVILINE

A Home Necessity

A prolific author says that the only way to write a book is to start making black marks on white paper, thus preventing ideas from evaporating.

A "dominant personality" is just a chap who knows what he wants. You can't lead, you know, if you don't know which way to go.

She Could Never Do The Things Other Girls Did

Miss L. Ross, Rockland, Alta., writes: "I am only twenty years old, but have suffered from back pain and nerve trouble for several years."

"I could never do the things other girls did. That is, in the line of sports, skating, etc., and could never depend on myself at work."

About six months ago I began taking

and am just twice the girl I was, and can enjoy everything in general life so much more. My back is now free for what your Pills have done for me!"

ISAAC AND HIS WELLS

Golden Text: A soft answer turneth away wrath; But a grievous word stirreth up anger. Proverbs 15:1.

Devotional Reading: Matthew 5:1-12

Explanations and Comments

Isaac's Prosperity and Its Result, verses 12-14. Isaac had sold the yield which Isaac obtained from his sowing, and so great was his possessions in the land that he was great as his household, that the Philistines envied him.

"There is a heart of a gentleman in you," professional man, have you never envied your brother preacher who has a greater congregation, and is more often noticed in the Press than you are?

You, woman, have you never been envious of your sister woman who happens to be younger and fairer than you are, and more admired than yourself?" (Dr. J. D. Jones)

The envy of the Philistines led them to fill up the wells which Abraham had dug, and Abraham, therefore, commanded Isaac to leave.

Isaac did not strive with them. Without wells Isaac could not support his cattle and he, and he moved on and erected his camp in the Valley of Gerar.

"It used to be a mark of gentleness that he would instantly resent an encroachment on his rights, and pick a quarrel at a moment's notice. To-day, that would be a mark of ill-breeding."

Where education and Christian culture have done their fullest work, there is most patience and gentleness."

Calcium Arsenate Or Arsenate Of Lime Is An Economical Insecticide

The old buggy served its day and served well, but times have changed. The car is now the popular means of transport.

Paris green was the old-fashioned poison for potato beetles and sunbry other leaf-eating insects, but its day of economical service is fast passing.

According to Professor M. J. Milne, entomology department, Manitoba Agricultural College, a newer and much cheaper poison for insects has made its appearance upon our markets and should be much more widely known than it is at the present time.

This newer insecticide is calcium arsenate or arsenate of lime. It is much cheaper than Paris green, shows up on the foliage better since it is white, and will not dry or wash off when applied either dry or in water.

The price of calcium arsenate or arsenate of lime has dropped this year and this fact should catch the insecticide dealer's eye.

This new insecticide is much cheaper than Paris green, shows up on the foliage better since it is white, and will not dry or wash off when applied either dry or in water.

OUR CROSSWORD PUZZLE

- Horizontal**
- 1—To make a glancing movement.
 - 3—Work hard.
 - 5—European tree.
 - 7—So be it.
 - 9—Organ of the body.
 - 11—In this place.
 - 13—Anything that fastens.
 - 15—Tireless.
 - 17—Resin.
 - 19—Surrender or turn over.
 - 21—Obstruct.
 - 23—Professing meaning from.
 - 25—Adult females.
 - 27—Baptism.
 - 29—By or through.
 - 31—One who provides food as for a party.
 - 33—Wicked.
 - 35—Something owed.
 - 37—Above and in contact with.
 - 39—Barren.
 - 41—Surmounts.
 - 43—Box, sheath, or bag.
 - 45—Place left untouched on a statue.
 - 47—Pertaining to a foot.
 - 49—A lower limb.
 - 51—Director.
 - 53—Dress up (dance).
 - 55—Symbol for tantalum.
 - 57—Fast.
- Vertical**
- 1—Covering for the head.
 - 2—in the midst of.
 - 3—Regenerate.
 - 4—Above and in contact with.
 - 5—Finds a market.
 - 6—Fabric.
 - 7—State emphatically.
 - 8—Wager.
 - 9—Alternative.
 - 10—Affirmation.
 - 11—A Great Lake.
 - 12—Serving maid.
 - 13—Young lure.
 - 14—Pertaining to Homer.
 - 15—Keep time.
- Answers to Last Week's Puzzle**
- 1—Black bird.
 - 2—Cut off the top of.
 - 3—Minute point.
 - 4—Collar turned down and falling over the shoulders.
 - 5—Abhorred.
 - 6—Lawn.
 - 7—Female quarters in Turkey.
 - 8—Expressed juice of apples.
 - 9—Repair, as jewelry.
 - 10—Silver Swedish coin.
 - 11—Having two feet.
 - 12—Pharaoh; contributor.
 - 13—Ritual; suit.
 - 14—Back of the neck.
 - 15—Plant of water lily family.
 - 16—Trap or snare.
 - 17—Precious stone.
 - 18—Sixteen.
 - 19—Finds a market.
 - 20—Cut asunder.
 - 21—Hub of a wheel.
 - 22—Govern.
 - 23—Girl's name.
 - 24—European seagull.
 - 25—Ramble; stray.
 - 26—Encountered.
 - 27—Thus.
 - 28—Note of distaste scale.

GIVE CONFIDENCE

TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets in the Home

A simple and safe remedy for the common ills of babyhood and children should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that beset their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergency.

Baby's Own Tablets are a mild but thorough laxative that set without griping and they are absolutely guaranteed free from opiates or other medicine drugs. They are sold by all druggists or by mail for 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Heavy Sentence For Aged Spy

Seventy-Year Old Blind Woman Convicted In Russia

Anna Vezova, 70-year-old, known as the grandmother spy, was sentenced to seven years in a labor camp for espionage.

Paris probes and during that time it was charged had betrayed many prominent social revolutionaries and nihilists, among them Anatole Lunacharsky, now Soviet commissar of education, and the Prince of Wales, said the Prince. The former laughed. "You're the Prince," he said, "I'm the King of England."

Do You Cough?

Prince Greated South African Who Claimed Relationship In Joke

"Hello, father," said the Prince of Wales to a South African farmer whom he met at a public dinner. The Prince had been out in running shorts the previous day, when, feeling thirsty, he called at a farmhouse and asked for a drink of water. The farmer, who was unaware of his identity, gave him the drink and asked him his name.

"I'm the Prince of Wales," said the Prince. The farmer laughed. "You're the Prince," he said, "I'm the King of England."

The woman had been for twenty-five years the secret agent of the Paris police and during that time it was charged had betrayed many prominent social revolutionaries and nihilists, among them Anatole Lunacharsky, now Soviet commissar of education, and the Prince of Wales, said the Prince. The former laughed. "You're the Prince," he said, "I'm the King of England."

For years she enjoyed the confidence of the leaders of the revolutionary movement. She resided in Moscow, where she maintained an elegant salon, much frequented by the Bolsheviks.

Her Hundredth Birthday Gift
Madam Victoria Lepiatnikov, of Neuchâtel, Germany, died recently at the age of 100. On her hundredth birthday she was asked by her grandchildren and great-grandchildren to compose a present. She selected an aeroplane trip from Zurich to Geneva, and was greatly pleased with it.

Of two evils some men choose the lesser—unless there is more money in the one other.

"The marvels of electricity have set me thinking." "Yes; isn't it wonderful what electricity can do."

NEEDS A SPIRIT OF CONCILIATION TO SETTLE STRIKE

London.—Avoidance of vindictiveness and a conciliatory spirit is ever known in the Kingdom was urged by Premier Baldwin in the House of Commons, when the subject of the general strike was up for debate. At the same time he pointed out the extreme difficulty of reconciling the government's pledge that no harm would come to the volunteers who had aided the nation in the crisis with the need of reinstating every striker.

Ramsay MacDonald, former Labor premier, in opening the debate, deplored the fact that bitterness had been infused into the relations between employers and the men. He earnestly appealed for a spirit of conciliation that could be taken of the present position to establish good relations on a broader and a firmer foundation than existed before. He hoped it was the desire of parliament primarily to declare to the whole nation that it wanted no crushing or humiliating, and that it lifted its voice in behalf of healing, restoration and restitution.

Premier Baldwin compared the situation with that after the Great War when the problems of the first few months were far more difficult than those they had to face during the war. The problem to be threshed out between the trades unions and employers' associations of reinstating the men, while doing no injustice to the men who helped the nation in its time of need, called for real statesmanship. He urged that the government's declaration of the country's trade no longer required that there should be no bitterness or delay in getting the industries started again.

"There are some who like fishing in troubled waters," he said. "Let us get the waters calm as soon as we can, let the work of half a century be spoiled."

The premier said that the recent and friction must exist temporarily but there could be no greater disaster than anarchy in the transportation world. The government had no power to give orders or to coerce the employers, but the government's influence was being exercised to keep the letter and the spirit of what had been broadcast during the past ten days.

J. H. Thomas, the chief labor leader in the strike, like Mr. MacDonald, strongly protested the attitude of the British Gazette, the government's official newspaper, which used as the caption of its announcement of the ending of the strike, "Total Surrender."

"Imagine the bitterness of that," Mr. Thomas exclaimed, "to two millions of men who had refused to surrender to the German."

The labor leader, detailing many cases of employers refusing to reinstate the men except under penalizing terms, begged the employers in the house and elsewhere to give effect to the premier's broadcast, which showed "a magnificent spirit."

Discussing Plans To Secure Alberta Coal

Committee Will Ask \$7.00 Rate On Shipments For East

Toronto.—Mayor Thomas Potts has announced that he would summon the Alberta coal committee, composed of representatives of various Ontario municipalities, in order to discuss plans to secure a supply of Alberta coal. Mayor Potts expects that Premier J. E. Brownlee of Alberta will join with the members of the committee in making representations to Ottawa for a temporary rate of 47¢ for this year and that the experiment will prove so successful that the railways will be willing to continue the rate.

Combat Forest Fires

Winipeg.—Two airplanes have been rushed to the scene of the forest fires which had menaced wide areas in the Lac Du Bonnet and Grand Duches districts of Manitoba. Reports from the forest patrol indicate the fires are being subdued. Rain, which was falling generally throughout the province, aided the fire fighters.

Poland Wants Canadian Goods

Montreal.—Interviewed here on his return from a trip to Poland, Michel Strazewski, consul-general in Canada for that country declared that there is a good demand for certain Canadian commodities in his country, especially wheat, flour, agricultural implements and automobiles.

Would Stabilize French Credit

Prominent Montreal Men Start "Save the Franc" Fund

Montreal.—A "Save the Franc" fund in Canada in aid of the French financial situation has been started in Montreal.

A prominent committee, headed by Sir James Gounin, former premier of Quebec and former federal minister of justice, has been formed. The appeal is being made on the basis of gratitude to France for her heroic efforts and on the practical ground that stabilization of French credit will result to the business advantage of this country.

School children will be appealed to for very small contributions and it has been suggested that employers take up modest subscription lists from employees willing to donate.

When complete, the money will be dispatched to Marshal Joffre as head of the main fund in France.

Revolt in Poland

Severe Fighting Occurs in Streets of Polish Capital

Berlin.—Reinforced troops from Warsaw said that severe fighting occurred in the streets of the Polish capital, many persons being killed or wounded.

Anti-government forces are reported to have occupied the castle, the premier's residence and the foreign office, and to be marching on the president's palace at Belvedere.

It is additionally reported that the government has resigned and that the president's resignation is expected.

Telegraph and telephone communication from Warsaw is badly interrupted, but the Polish agency at Danzig sends out the information that troops loyal to the government have occupied all the public buildings.

Crop Conditions In Europe Excellent

Are Making Seasonable Progress Says Report From Rome

Rome.—According to a cablegram received by the department of agriculture from the International Agriculture, Rome, the condition of winter cereals in Bulgaria is excellent. Crop conditions are good in Italy, and fairly good in Belgium. In Poland conditions are a little above the average. In Hungary the weather has been favorable and the crops are making seasonable progress. Conditions have been normal in Roumania and spring sowing was almost completed at the end of April. There have been some complaints of rust in France, and crop conditions are not so good in that country as they were at this time last year.

Manitoba Bird Sanctuary

Provincial Government Sets Apart 2,000 Acres at Portage la Prairie

Portage la Prairie, Man.—The Provincial Government has recognized the advisability of establishing a bird sanctuary at this point and for which the confirmation was received from the United States. The territory will embrace upwards of 2,500 acres, 600 of which will be water and will be marked out by the Kiwanis Club of this city.

Furthermore, the parks board has prepared a pond for wild geese and ducks to serve as a homing place for them. It is situated adjacent to the deer enclosure in the park.

Many British Pensioners Here

Britain Spends \$5,000,000 A Year On Pensioners in Canada

London.—During the course of a discussion in the House of Commons on the estimates of £39,500,000 (about \$191,970,000) for the ministry of pensions, Sir Hon. G. C. Tyrone, minister said that there were about 15,000 pensioners in Canada and that the government was spending altogether in Canada about £1,000,000 a year.

Expenditure on the office in Canada was £23,000, a saving of £15,000 having been effected.

He thanked the Canadian Government for its assistance in the past in carrying out the work in Canada.

Lost Track Of Bear

Winipeg.—More than 60 per cent of the bear manufactured in Manitoba, upon which a gallone tax was paid in 1925, appears to have been disposed of without being accounted for to the government liquor control commission.

A superintendent of schools in Ontario County, N.Y., writes possible states in his automobile to plan to weigh every pupil twice a year.

New Flag For South Africa

Over 3,000 Designs Submitted to Committee For Selection

Cape Town, South Africa.—The Heriot-Watt Government has accepted a design for a new flag for the Union of South Africa. The design for the flag shows a vertical red bar next the staff and horizontal bars in green, yellow and blue.

The Union Jack will be flown in addition to the new flag and on state occasions.

Early in the year a commission representative of all parties in South Africa was appointed to select a flag for the Union of South Africa. This step was the outcome of a friendly arrangement between Gen. J. B. Hertzog, premier and nationalist leader, and Gen. Jan Christen Smuts, former premier and leader of the South African party in the House of Assembly.

Over 3,000 designs for the new flag were submitted to the commission.

Butter From Antipodes

Subsidized Australian Butter Is Subject To Dumping Duty

Ottawa.—Australian butter and canned fruits, subsidized for export, are subject to a dumping duty in Canada equivalent to the amount of the subsidy. This announcement was made in the House of Commons.

Hon. George H. Boulton, minister of customs, said that the government was informed that what is known as the "Patent" butter came into import in Australia on January 1st. It imposes a tax of three halfpence a pound on all butter produced in that country, and out of the funds thus provided a bonus of three pence a pound was paid on butter exported from the Commonwealth.

SQUARE DEAL TO ALL PROMISED BY BRITISH PREMIER

London.—It was made clear by Premier Baldwin during the conference with the Trades Union Congress leaders in Downing Street, that it was his purpose to stand by the terms of his statement in which he promised a "square deal for all."

The prime minister was questioned by Ernest Bevin, the dockers' leader, as to whether he was prepared, as head of the government, to make a general request that ready facilities for the reinstatement of the strikers would be given and whether all negotiations were to be carried on while the miners were still out.

"You know my record," Premier Baldwin replied. "You know the object of my policy, and I think you can trust me to consider what has been said with a view of seeing how best we can get the country quickly back into the condition in which we all want to see it."

"You will want my co-operation, and I shall want yours to try to make good the damage done to trade, and to make a little happier place than it has been in recent years. That will be my steady endeavor, and I look to all of you, when we are brought with this, for your co-operation in that. I shall do my part and I have no doubt you will do yours."

"In regard to the second point, I cannot say at this moment what will happen, because I shall have to see the parties. My object, of course, is to get the mines started at the first moment possible and get an agreement reached. I cannot say until I see them exactly what the lines will be upon which my object can best be obtained. But you may rely on me and rely on my cabinet that they will see no stone left unturned to accomplish that end."

Indian Woman Trapper Dead

Port Arthur, Ont.—Nancy Pummer, Indian woman, born in the Long Lac district 15 years before Confederation, died. She followed the occupation of trapper and traded furs with Hudson's Bay Company when she was a young girl. Her father, John W. Wabsee, was chief of an Indian tribe in the Moose Factory territory for years.

Bonnie Scots Barm for Canada

Canada gives a specially warm welcome to children, and Scotland continues to send her sturdy youth to the great Dominion. Here is a party which sailed from Liverpool to Canada on the Canadian Pacific liner "Montclair," recently. They are Robert and William W. Robert, Charles and Nancy Cameron from Forres, Jean Brown from Govin, W. Gray from Pite, and Flora Stables from Inver, Aberdeenshire.

U.S. HAS DECIDED TO TIGHTEN UP ON DRY LAWS

Washington.—The revamped administration measure for tightening up dry law enforcement was approved by a majority of the senate prohibition committee and will be recommended favorably by the judiciary committee.

The bill is not expected to pass at this session of congress, the wets are prepared to debate it at length, offering as amendments their modification proposals.

The bill provides among other things, penalties of imprisonment for five years or \$10,000 fine, or both, in cases of conviction for diverting denatured alcohol to unlawful uses; severe penalties for counterfeiting permits or physicians' prescriptions for liquor; seizure of all vessels on the high seas undertaking to smuggle liquor into this country, except that foreign vessels may be allowed to trade with treaty stipulations; search of United States craft by the coastguard at any place on the high seas; and search of dwellings on evidence of commercial distilling.

Carpenters Resume Work

Ten-day Strike in Vancouver Has Been Settled

Vancouver.—Work on several large buildings under construction in the downtown section of Vancouver, suspended for ten days by a carpenters strike, has been resumed following settlement of the dispute at a series of conferences between representatives of the strikers and general contractors' association.

Settlement includes continuation of the five and a half day week which the carpenters had sought to have reduced to five days, until May 1, 1927, and an increase of 50 cents per day to commence immediately. The new rates of pay for carpenters will be \$7.50 per day.

Urges People To Co-operate

King George Has Issued Appeal For National Peace

London.—King George issued an appeal to the people of Great Britain to co-operate in the task of bringing peace to the nation.

"Let us forget whatever elements of bitterness the events of the past few days have created," he said.

The King begged his people to remember how steady and how orderly the country had been through the country's industrial crisis and asked them to address themselves to bringing into being a lasting peace.

Prepare For Moving Bumper Grain Crop

Canadian Board of Commissioners in Conference at Montreal

Montreal.—The board of grain commissioners for Canada have been in Montreal conferring with the board of trade, the harbor commissioners and other interested parties in regard to the movement of this year's grain crop, which promises to be a bumper one, according to Leslie H. Boyd, chairman of the board. The opinion is generally held that increased facilities for handling the eastern shipments are needed at Montreal.

Large Berry Crop In B.C.

Growers Expect Record Production If Weather Remains Favorable

Vancouver, B.C.—British Columbia's berry crops are likely to establish a new record for volume of production this year unless bad weather intervenes before harvest time, according to officials of the department of agriculture. Recent rains on the coast have swelled the potential crop about twenty-five per cent. It is stated, and as a result, growers will market far more berries than they were able to last year, both on the prairies and overseas, in the form of jam.

An Honorable Settlement

Ottawa.—The basis of settlement between the British Government and the British Trades Union Congress Council is both an honorable and common sense one, stated P. M. Draper, secretary-treasurer of the Trades and Labor Congress of Canada, in commenting on the announcement that the general British strike had ceased.

Noted Canadian Painter Dies

Ottawa.—News has been received here of the death of the late John Parada, distinguished Canadian landscape painter. Mr. Parada was 75 years of age. He was born in St. John's, Que., the son of Judge Parada of the Montreal district.

Orders Renewal of Holy War

Paris.—A dispatch received here from Taza, Morocco, says Abdel-Krim, the leader of the Rifians in their warfare against the French and Spanish forces, has ordered the renewal of the holy war in Morocco.

Recovery From Strike

Britain Preparing to Pick Up the Pieces and Count the Cost

London.—Now, the nation that has borne with good humor and aspartan fortitude the inconceivable and enormous expense inevitable to any general stoppage of industry is preparing to pick up the pieces and count the cost. Work is being slowly resumed throughout the country. There are still many differences to be adjusted before industry can be in full swing again.

First, there is the question of the re-engagement of the men who have been notified that their places were filled. Then, too, groups in various sections have announced their unwillingness to resume work until the government emergency control is entirely removed.

But, on the whole, the nation has joyfully accepted the end of what the Trades Union Congress, with reason, has characterized as one of the most orderly stoppages in the history of industrial disputes.

Decorated North Pole

Amundsen Drops Flag of Three Nations on Top of the World

Rome.—Judging by Commander Nobile's radiograms to Rome, the North Pole has had something of the appearance of a birthday cake, except that flags, instead of candles, decorated it.

When Riser-Larsen's observations indicated that they were directly above the top of the world, the great drift ice slowed up and descended close to the ice fields. A brilliant ray of sunlight cutting through the mist caused the ice to glimmer like a mass of gems.

Amundsen dropped the Norwegian flag, Ellsworth the United States and Nobile the Italian, and two other Italian flags, one for the Italian Aero Club and another for the city of Rome.

Ship Grain To Vancouver

Will Be No Difficulty In Handling Wheat Through Pacific Port

Vancouver.—The amount of grain moving to the Pacific Coast this coming season will of course depend on the outcome of the crop in Alberta, which indications are very favorable, but whether crop is a very heavy one or only one of average size, there will be no difficulty at all in handling it on the railway from the start, said E. D. Cotterell, superintendent of transportation, western lines, Canadian Pacific Railway.

"This season," said Mr. Cotterell, "there was some difficulty in handling the crop until we put the permit system in force. After our experience of last year, we shall operate under this plan right from the beginning."

SAYS EUROPE IS ON THE VERGE OF ANOTHER WAR

Berlin.—In launching a campaign for the establishment of a new European federation, the Austrian Count von Coudenhove-Kalergi announces in the Vossische Zeitung, that "Europe is on the verge of another war." The war, he declares, is greater than in 1914, the present European developments are to be viewed from historical standpoints as the prelude to a new outbreak.

One day Europe will have placed before her the alternative of war of a general revolution as counter measures to a new outbreak and this means definitely the smashing of the present European system," says the Count, who long has been a leader in the movement in favor of the organization of a United States of Europe.

The Count declares the Western Alsace-Lorraine problem has been permanently solved by the Locarno agreements, but says in its place at least a dozen new Alsace-Loraines have cropped up in Eastern Europe, which are "located in the volcanic zone responsible for all European wars since 1871."

He confessed that at present the main safeguard against war is general poverty, which, however, is not considered insurmountable.

The writer asserts that Bessarabia represents the "epicenter" of the European power battle, involving conflicting policies of Rumania, Russia, France, Great Britain, Germany and Italy.

Still another menace, he says, threatens from Italy, the objective of whose avowed imperialism and militarism still is uncertain, whether directed toward Asia, Asia, or Europe.

"Today," says Count von Coudenhove-Kalergi, "any hostile is capable of involving Europe in another war."

RESOURCES BILL FOR ALBERTA IS IN ABEYANCE

Ottawa.—The trouble which has been stirred up over the schools aspect of the matter, makes it doubtful if the bill to return to the province of Alberta its natural resources will be proceeded with this session.

The autonomy bill, which created Alberta into a province, provided a school land fund for educational purposes and in this measure public and separate schools were recognized. The public lands are now being handed back to the province and, while it was not included in the original agreement, the government has on the other hand a resolution by which an amendment. With its legal verbiage clarified, the effect of the resolution is to continue, under provincial administration, the same system in regard to school lands that has prevailed in the last 20 years.

Objection has been raised on school lands. One is that this clause is foreign to the natural resources question and the other is that, if ratified by the Imperial Parliament, as the legislation is intended to be, it might preclude future change by the province in its law in respect to education.

On the other hand, it is contended that the school provisions are constitutional but that, when dealing with school lands, it is well to propose any misunderstanding. Hence the proposed amendment.

Premier Brownlee has had a number of consultations on the subject and views the matter as troublesome, especially in view of an agitation in certain circles at home and also because a provincial general election is impending. "It is said to light upon the proposed clause being cut out. The view in government circles is that the proposal contemplates merely a continuance of a system that has a constitutional recognition and that, if the provincial premier objects, the legislation for return of the resources will not be proceeded with this session. In several respects it would be contentious."

Contract Campaign Started

Livestock Pool Will Concentrate On Districts Where Settlement Is Favorable

Moose Jaw.—The Saskatchewan Livestock Pool is now ready to start its campaign for contract livestock. It will accept invitations from any districts to send speakers and organizers, either where local livestock shipping associations already exist, or where there is no organization but a small interest in favor of the pool marketing system, stated W. D. MacKay, president of the recently organized Saskatchewan Livestock Pool.

In the past two or three weeks the pool has been engaged in securing information as to the sentiment in various districts and the campaign for pool contract signers which will be carried on during next few weeks will be prosecuted in territories where it is found the sentiment in favor of the pool marketing system is strongest.

ROTOR SHIP
CROSSES ATLANTIC.

Whirling towers, that serve as "sails" and that trick the wind in to pushing the boat or vessel, is the rotor ship which has crossed the Atlantic ocean. Here is another means of transportation, and at no cost of movement except friction and the usual wear and tear. The wind is used, and the wind is free, just as with the sailing ship.

This is not so new, after all; for all motive power comes from Nature or from the elements. The difference is merely in the cost of production. The use of electricity, coal, gas, oil and hydraulics comes from the mere harnessing of natural forces. Fuel costs money and labor to produce; air is free—thus far. As long as the utilization of natural forces is comparatively free, men will keep on using these forces for practical purposes and as an efficient method of meeting competition and reducing costs.

More power to them! We wouldn't think of going back to the old sailing vessel for commerce, but if we can modernize the sail boat and bring it up to modern needs, the world will accept it, people will ride in it, and its owners will prosper from it on a commercial basis.

Railroads claim their big losses in dining car service is not that they do not charge enough, but on account of food cooked and not used. They could easily remedy this by putting more on the plates when serving.

"Not knowing what styles will be twenty-five years hence, it is a little hard to say where the child ought to be vaccinated."—Detroit News. Not "where," brother, but "whether."

Economist says we ought not to do anything we can't afford to do. How about paying one's honest debts?

Some people want the word "obey" taken out of the laws as well as out of the marriage ceremonies.

When machine-guns are brought into play, the play part is only for the men behind them.

Adversity builds character. Even a man with a cane usually is bent on getting somewhere.

Women have a chance nowadays. Think what a good opening the lowly can opener presents.

The King of Italy should have time now to get up a new game of solitaire.

Men may come and go, but ideals live on forever.

Here and There

Eighteen fishery owners from the Maritime Provinces and Quebec recently took a two weeks' course at Halifax in the latest methods of preparing dry and smoked fish at the Dominion Biological Station and at Dalhousie University.

A crowd of citizens and officials gathered at the Canadian Pacific depot at Vancouver recently to welcome the Canadian Pacific special mail train when it pulled in after having completed the journey from Winnipeg in six minutes over the record of thirty-two hours. The journey across Canada from Quebec occupied less than three and a half days.

Regardless of the great strike in the British Isles, Windsor Station in Montreal was filled to overflowing with travellers towards the last few days of the first week in May. They were all taking the boat train to sail on the Canadian Pacific liner Minnedosa from Quebec. Two special trains were made up carrying five hundred passengers from all parts of Canada.

Revenue of the Prairie Provinces, Alberta, Saskatchewan, Manitoba, last year from all sources is estimated at \$1,050,000,000 representing a huge increase over the sum of \$860,000,000 for the previous year. The returns were derived as follows: agricultural, \$725,000,000; industrial, \$150,000,000; tourist, \$50,000,000; mines, fisheries, etc., \$40,000,000.

General Change
in
TRAIN SERVICE
effective
Sunday, May 16, 1926

Times for Trains at Coleman will be:

Westbound
No. 67—8:33 a. m. Daily
No. 535—3:08 p. m., Mon., Wed. and Fridays.
Eastbound
No. 68—10:35 p. m., Daily
No. 536—9:51 a. m., Tue., Thurs. and Saturdays.

TRANS-CANADA LIMITED, Nos. 7 and 8 (Standard sleeping cars only) between Montreal, Toronto and Vancouver will be resumed, first train leaves each of these points on May 16th, 1926.

THE MOUNTAINEER, Trains Nos. 13 and 14, between Chicago and Vancouver will be resumed, first through train passing Calgary, Westbound, June 9th, and Eastbound, June 12th.

Says Nothing To Impede Navigation Through Hudson Straits Even In Winter Time

Are ice conditions in Hudson Strait such as to impede navigation in the summer and fall?

"No," is the unqualified assertion of Rt. Rev. A. D. Dewdney, Bishop of Keewauwin, whose diocesan duties have taken him to the strait as recently as last summer. Bishop Dewdney goes further than this. He says ice will not impede navigation in the winter. Opponents of the Hudson's Bay route for decades have argued that even in the summer months the strait is impassable for a reasonable period of the year. Hudson's Bay was an unknown quantity and would almost certainly be very dangerous to navigation at practically all times of the year.

There are no ice conditions in Hudson's Strait after the middle of July, says the bishop, who declared in an interview. In the course of supervising the work in his diocese, which extends almost to the North Pole, Dr. Dewdney has to patrol the land skirting Hudson's Bay.

On his trip to the northern part of his diocese last year, he went through the strait, and was told that the conditions in Ungava Bay to the south of the strait and along the Labrador coast were the worst in years, yet there was no ice in the strait to affect navigation in the winter, he said.

Dr. Dewdney asserted that Hudson's Strait is never frozen, even in winter, nor is there any float ice in fall and winter, as the ice away in the northern reaches of the Hudson is tightening up at that time.

There might be discomfort from sailing in the northern waters of Hudson's Bay and Strait during the winter months, but as far as the strait was concerned, or in the open waters of the bay, there was nothing to fear, he emphasized.

Dr. Dewdney tells of great changes in the great northland of Canada. Within the next year or so the Hudson's Bay Company and Revillon Freres have opened fur trading posts in the north. Within the next ten years he predicts that the whole north will be dotted with these posts, connected with the outside world by water transport. By that time the Eskimo will have largely disappeared and the Indian and the white man will be holding sway in the north, a trapper.

Western Fisheries

Prairie Provinces Secure Large Revenue From Commercial Fishing

Inland fisheries in the Canadian west (the three prairie provinces and the Yukon) had a commercial value of \$2,200,000 last year. Five per cent of this was paid to the government and returns to the bureau of statistics and represent an increase of \$707,591 over the previous year. About 44 per cent of the marketed catch was whitefish. Manitoba leads with \$1,275,751; Saskatchewan with \$1,074,454; Alberta, about \$428,501; and the Yukon \$155,750.

Satisfied Settlers

British Settlers in Alberta Are Very Pleased With Conditions

James Trevelyan, commissioner of the Allied News-papers, Limited, comprising fifteen publications in the old country is making an investigation into conditions among the new settlers in Alberta. He reports that more than ninety per cent of the settlers with whom he has come in contact in Canada cheerfully declare that they have had a square deal and are satisfied with their prospects on the prairies.

No News To Her

A pretty girl, presiding over a booth at a charity bazaar, was approached by a wealthy man that had the reputation of being a rake. "How much for these chocolates?" he asked, picking up a box of the confections. "Five dollars," he was told. "But," he exclaimed, looking first at the chocolates, and then at the girl, "aren't you a little dear?" "So I've been told," was the demure reply.

Buyers Alberta Farm

One of the first of the British youths who have been settling on the farm in Alberta is the W. Waddell, of County Down, Ireland. Mr. Waddell, who studied at the Veterinary school under the Hoadley scheme last year, has bought a farm in the Leduc district.

Usually plus trees are being used to take up the water of the swamp lands of Palestine, as they thrive in swamps.

W. N. U. 1929

4,000,000 Pounds Of Honey

Manitoba Offers Exceptional Advantages To The Beekeeper

Beekeeping in Manitoba has grown remarkably in the past few years. In 1925 there were 2,000 registered beekeepers in the province owning a total of 27,270 hives of bees, the production from which was over 4,000,000 pounds of honey, worth \$161,062, according to a recent official report.

Manitoba has many more advantages as a honey producing province than beekeepers from supposedly more favored lands have supposed. The hours of summer sunshine are long, especially in the high production season, this enabling the bees to work overtime. There are some 230 wild plants in Manitoba which produce honey of varying quality from early May to September. The principal flow is in July and August.

L. T. Floyd, provincial apiculturist, says that beekeeping in Manitoba is very popular with the ladies, and proves its statement by reporting that one in every nine of the beekeepers in the province is a woman. Mr. Floyd observes that mother and the girls on Manitoba farms and also in the cities and towns have found beekeeping a very profitable and pleasant pastime.

Canadian Butter Awards

Premier Awards Go To Canada At Dairy Show Held In London

At the dairy show recently held in London, England, Canada carried off the premier awards for butter. In the salted class Burns & Co. of Edmonton, Alberta, won the first prize with a score of 97 points, while Lull's Creamery and Woodland Dairy, both of Alberta, were highly commended, both having a score of 95 points. The winner of the second prize for butter, scoring 95 points, was the Carleton Creamery, of Saskatchewan, which also had a score of 95 points. Lull's Creamery and Woodland Dairy, both of Alberta, were highly commended, both having a score of 95 points. The winner of the second prize for butter, scoring 95 points, was the Carleton Creamery, of Saskatchewan, which also had a score of 95 points.

For Saskatchewan University

Two Manitoba Professors Will Take Up Work in Neighboring Province

Saskatchewan University is taking two of the Manitoba University professors away.

Prof. J. S. de Lury, who has been associated with Prof. R. C. Wallace in the geological department of the University of Manitoba for a number of years and took charge of it when Prof. Wallace was Commissioner of Northern Manitoba, will leave in 1927 to establish and organize a similar department in the Saskatchewan University. Prof. de Lury is at present doing some geological survey work for the Saskatchewan Government.

Prof. R. T. McGibbin has been appointed to a chair of anatomy in the University of Saskatchewan. The chair is being established to round out the three-year pre-medical course offered. Prof. McGibbin has been at the Canadian University since 1921. He will go to the sister university at the end of the academic year—Free Press.

Area Of Farm Land

Millions of Acres of Land Suitable For Cultivation and Still Uncultivated

In the most recent compilation made by the Canadian Government bureau of statistics, the total land area of Canada is placed at 2,962,592,300 acres, of which 255,162,190 acres are possible farm land and 140,857,502 acres are occupied.

In Eastern Canada 50,995,066 acres are occupied and 70,165,794 are available for settlement. In the four provinces of Western Canada 90,792,287 acres are under occupation and 147,106,405 acres, suitable for agriculture, await development.

The average value of the occupied farm lands in Canada, both improved and unimproved land, including farm houses and buildings, is given at \$38 per acre.

The same authoritative compilation places an estimated value of livestock in Canada for 1925 at \$701,287,000, compared with \$611,141,000 in 1924.

Canada's Sunniest Place

Qu'Appelle, Saskatchewan, Holds the Highest Thirty-Year Average

According to the records of the official weather man, Kamsloops, British Columbia, enjoyed more sunshine than any other place in Canada. That city had a total for the year of 2,419 hours. Qu'Appelle, Saskatchewan, came second on the list in 1925 with 2,259 hours, but on the average for 30 years Qu'Appelle had 2,275 hours of sunshine, the highest average annual total in the Dominion. Winnipeg is given second place in the 30-year average with 2,154 hours, and Edmonton, which had 2,083 hours. Last year Victoria, British Columbia, held third place with 2,267 hours, Calgary, Edmonton, Toronto and Ottawa each enjoyed over 2,000 hours.

Needed Protection

Florida—Chief, Ah, needs protection! Ah, needs a unanimous letter this morning! Which one says? "Nigger, let me chicken alone!"

Chief of Police—"Why protection? Just leave the chickens alone!"

Florida—"Dat's all right, boss, but how does I know whose chickens I'm to leave alone?"

Eighty per cent of the population of India get their living out of the soil.

Livestock Prospects Encouraging

Cycle of Prosperity For Industry Now Entered Upon

There is much that is encouraging in the sixth annual Livestock Market and Meat Trade Review for 1925, just issued by the livestock branch of the department of agriculture at Ottawa. It was the best year for the feeder of good livestock in this country. It would appear, says the Review, that 1924, a long period of depression in the industry that a cycle of prosperity has been entered upon and that, given normal pasture and feed conditions during the next few years, cattle, sheep and swine production should more than compensate for the troubles of the past. Prospects, it is definitely said, are encouraging.

The hog situation in Canada in 1925 was remarkable for strong and steady prices on a pretty good scale, and was a very noticeable improvement to the general quality of the offering. Hogs of good bacon weights and quality were \$7 per head higher than in 1924. While short supplies from Denmark and the United States and the shipment of 86,000 head from Canada to the Pacific coast were in a measure responsible for the betterment of the situation, the main reason for the improved market was undoubtedly the generally higher standard of quality in the select and thick smooth classes, due to grading, combined with a better export pack and a retained reputation among British consumers for the producing and manufacturing of high quality bacon.

No. 1 Hard In Austria

Canadian Hard Wheat To Be Propagated In That Country

That Canadian number one hard wheat is being propagated in Austria is the information contained in a letter received a few days ago by the department of colonization, agriculture and natural resources, Canadian National Railways, Winnipeg. The communication is from Dr. Ramek, prime minister of Austria, acknowledging receipt of a sample of No. 1 hard wheat, which was sent to him in January last by the department. Dr. Ramek writes in part as follows:

"This product, which represents a highly qualified and well known all over the world standard seed, is very valuable to us. We immediately sent it to the Austrian Federal Institute in Vienna for analysis with a view to further cultivation. The federal department of agriculture will provide for propagation of this sort of grain in order to advance Austrian agriculture."

Will Follow Canada's Lead

British Ministry of Agriculture Keeping Official Poultry Records

Acting on recommendations made by the National Poultry Council of England, the British ministry of agriculture had drafted a policy for the official certification of poultry records similar to the record of performance for poultry which has been in operation in Canada since 1919. The system, which is to be known as "English and Welsh Stock Poultry Laying Records," was decided upon only after careful consultation and the action of the British ministry testifies to the high regard in which the Canadian policy is held in other countries. The record of performance policy, administered by the Dominion department of agriculture, greatly improved Mr. Percy Francis, British poultry commissioner, during a visit to Canada in 1923.

Interesting To Speculate On The Future Development Of Agriculture In Western Canada

Small Fruits In Peace River Country

Strawberries, Raspberries and Currants Grow At Beaverhead Experimental Station

Small fruits do well in the Upper Peace River country. The superintendent (Mr. W. D. Albright) at Beaverhead, Alberta, experimental station, reports that 1924 was a banner year for red and white currants, particularly for the former; that raspberries were abundant, and that strawberries should hold a substantial place in any farm garden. The New Red Dutch, Victoria Red and Cumberland Red varieties of red currants were particularly successful last year, six bushels of each yielding respectively 9.5 lbs. 56 lbs. and 757 lbs. Large White Ottawa 551 and White Cherry Ottawa 550 varieties of white currants yielded 663 lbs. and 7312 lbs. Black currants have not done well the last two years. It is thought they have been pruned too liberally to obtain cuttings for distribution.

The Herbert variety of raspberry is the best yielder. In 1924 from a row not over eighteen rods long 145 quarts were gathered. Mr. Albright points out that assuming this variety derived from a width of half a rod the yield would figure out 2,631 quarts estimated at 2.64 pounds per acre.

The first ripe strawberry was picked on June 26; on July 11 there was good picking, followed by continued pickings up to August 10. From three rows 320 feet long and spaced four feet apart in 1922, 157 quarts were gathered, being at the rate of 1,778 quarts per acre, and five rows planted in 1923 yielded 484 quarts or 1,067 quarts per acre. Early Dakota is the variety cultivated. The 1925 plantings, Mr. Albright says, had few strong early-ripening plants.

Dairy Cattle For Russia

Pure-bred Cattle and Sheep May Be Shipped From Vancouver Island

Vancouver Island pure-bred dairy cattle and sheep may be shipped to Soviet Russia, considerable numbers soon to replace herds there slaughtered during the Russian revolution and the subsequent years of chaos. This was indicated in the sale of sheep from the farm of G. H. Hawden, near Duncan, to a cattle breeder from Moscow, recently. In a letter to the department of agriculture, Victoria, Mr. Hawden says this Russian breeder plans to come back to this province again in the fall to purchase more stock.

Market For Canadian Wheat

A greater market for Canadian wheat is likely to be opened soon in Greece, in the opinion of John Dewdney, new consul-general in Canada for that country. Prior to the war Greece had taken practically all of her grain importations from Russia, but this year the new consul-general has received a mission from the Greek Government as a field for grain purchases.

Since the first London Paris airplane began flying in August 1919, British civil mailboats have carried more than 60,000 passengers between London and the continent.

A new homestead area in Western Canada is inevitable, in authoritative opinion, as a result of the discovery of the earlier maturing wheat which has pushed back the northern limit of agriculture for from between sixty and seventy-five miles and added millions of acres to the productive area of Western Canada. The chairman of the board of railway commissioners has given it as his opinion that it will be necessary to push railway lines north to enter this vast new empire which Canada has so sensationally added to her economic possessions. It suddenly becomes a new factor in future Canadian land settlement, and adds substantially to Canadian farming opportunity as it will exist for immigration for years to come. Canada has just completed a most remarkable quarter century of agricultural development, and it is interesting to speculate on what the quarter century she is just starting upon may bring to her in this regard.

Twenty-five years ago Western Canadian farming opportunity was being extensively advertised and eliciting a certain response. In 1901, 49,119 immigrants from the British Isles, 17,857 from the United States, and 19,322 from other countries. The Canadian West was at that time, however, a largely unknown territory, and its potentialities were scarcely regarded. There were less than 15,000,000 acres occupied as farms in the entire area, and it was not until years afterwards that it started assuming the long list of international agricultural awards which brought it world renown and drew wide attention to its agricultural productivity. Today there are nearly 90,000,000 acres of land in the three prairie provinces occupied as farm land and in the period while production has increased over 600 per cent, and that of other cereals and livestock and other farm products is only a lesser proportion. What will the quarter of a century opening up effect in Western Canadian land settlement?

Canada sets out on the new quarter of a century land settlement and agricultural development, and the finest of supplies. In very brief time she has penetrated the markets of the world with the products of her farms and her stock raising, and the competition of longer established countries. The prospects facing her farmers and other who will join them are bright. That a belief in this expansion exists even beyond the confines of the Dominion is evidenced in the statement of Dr. O. E. Baker, of the United States department of agriculture, who, before Garnet wheat and its potentialities were known, estimated that Canada was potentially capable of producing a wheat crop exceeding 1,300 million bushels, whereas years ago Senator Calder, of New York, gave it as his opinion that the Dominion would develop never more than the wheat acreage of the United States.

Sugar Beet Seed

Six Carloads Arrive At Raymond For Season's Planting

Six carloads of the best seed for the sugar beet fields of Southern Alberta have arrived at Raymond and will be distributed to the beet growers at once in preparation for the coming season. Government tests of this seed, made by the federal department of agriculture, shows an unusually high quality, and the returns for this year are expected to be quite good.

Always In Attendance

From an essay on the pleasures and benefits of walking: "I have two doctors, my left leg and my right," declares G. M. Trevelyan. "When mind and body are out of gear (and those twin parts are out of gear at such close quarters) that one always catches melancholy from the other I know that I have only to call on my doctors and I shall be well again."

Would Admit Only Healthy

Stricter laws to prevent the entrance of mentally diseased immigrants into the country, the establishment of psychopathic wards in British Columbia hospitals, and tests of this kind, made by the federal department of agriculture, shows an unusually high quality, and the returns for this year are expected to be quite good.

S. C. Tin Mine

This is the Consolidated Mining and Smelting Company at Trail, B.C. The output, which is from one-half to two tons per day in the form of concentrates, is a mixture of tin and lead, by-product from the Sullivan mine area. A number of tin ingots were first made in the company's laboratory.

Warm Welcome Given Famous Stanley Cup

On behalf of the Dominion Express Company which has carried the cup across Canada, the Stanley Cup, time-worn emblem of the world's hockey championship, was handed by Angus Hays, depot agent of the company, to T. Arnold, Vice-President of the Montreal Hockey Club, at the C.E.R. Windsor Station, Montreal, recently. In acknowledging its receipt, Mr. Arnold expressed the gratification of his club at the service which had been given to the Stanley Cup since 1921. He said the frequent trips made by the club over the company's lines to meet their engagements.

"The comfort and even luxury of the club's travelling arrangements," Mr. Arnold declared, "sent a long way towards keeping the players in good condition for their games."

The cup bears evidence of the passing of the years. There is hardly a square inch of its surface, interior or exterior, or of its pedestal, that is not inscribed with the name of some club, player or official, who at one time or another had it in their possession. To celebrate the occasion of the return of the cup after an absence of three years, it was filled with champagne and passed around until everyone present had drunk the health of the trophy or the club.

Those present to receive the cup at Windsor Station included the following: to the right: W. Downey, depot agent, Place Victor Station, Dominion Express Company; Angus Hays, depot agent, Windsor Station, Dominion Express Company, who handed the cup over officially to the club; Elmer T. Ferguson, sporting editor, Montreal Herald, who welcomed the cup on behalf of the local press; W. O'Brien, trainer; Reg. Noble, Punch Broadband; T. Arnold, Vice-President Montreal Hockey Club; C. Dinmore; A. Cayford, Secretary-Treasurer; C. Carson and C. Kerman.

WORLD HAPPENINGS
BRIEFLY TOLD

Two army aviators escaped injury by jumping with parachutes when their planes collided 3,000 feet above Langley Field, Virginia. The planes were completely demolished.

Doctors Baron Klint and Hegelund of Sweden, who have been conducting experiments for several years, claim that they have discovered a cure for sleeping sickness.

For the first time in the history of the historic river Thames, an international boat race will take place June 26 this year, for the Duke of York's international gold trophy.

The Federal Government does not intend to establish an Indian hospital in Central Saskatchewan, it was stated in the House of Commons in answer to a question.

There are only 47 unemployed persons in Paris, whereas London, before the strike there, had 800,000 and Berlin 450,000. Minister of Labor Durand said at a banquet inaugurating the Tours exposition week.

A dispatch from Chicago says out of his own pocket State's Attorney Robt. Crowe has offered \$5,000 reward for information leading to the arrest and conviction of the machine gun slayers of his assistant, William H. McSwiggin, and two beer runners.

A column of French troops tramped over the route to Souleida and buried the remains of 2,000 of their comrades who were massacred by these tribesmen nine months ago while attempting to relieve the Souleida garrison, which was besieged by the tribesmen.

A new cabinet has been announced in Poland, with Premier Witos at its head. The new ministry reports both the centre and the right wing parties. Foreign Minister Morawski of the previous cabinet retained his portfolio.

For the Little Fellow

The small boy will revel in this attractive version of the Oliver Twist suit. We call it the "little brother suit" because boys and girls of a similar age are sometimes dressed alike, and it makes a delightful companion to our "little sister dress," No. 1284. The blouse fastens with three scalloped edges on collar and cuffs. The sleeves are marked for a shorter length, and the lower edge of the blouse is gathered to a wide band. The straight trousers open at the sides and button onto the blouse. No. 1286 is in sizes 2, 4, 6, 8, 10, 12. Size 4 years requires 1 1/2 yards 36-inch material for the suit. Price 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Progress in Alberta

Annual compilation indicates the progress made by the province of Alberta in the past 20 years as follows:

Agricultural—products, \$40,000,000; wheat production, bushels, 5,000,000; 102,000,000; area in all crops, acres, 616,000; 11,000,000; dairy products, value, \$1,000,000; \$23,000,000; coal production, tons, 831,000; 5,600,000; manufactures, value, \$1,670,000; \$54,237,800; miles of railway, 3,000; 4,800; population, 200,000; 640,000.

W. N. U. 1629

The Resources
of an Empire!For Present and Future Development
in the Province of Alberta

DAME NATURE has been kind to the Province of Alberta. No Province of Canada occupies so strong a fundamental position as Alberta, with its great wealth of agricultural and other resources, the development of which has only just begun. Surely then, with so sure a basis for faith and confidence in the future, the people of Alberta need not hesitate to face the problems that arise, nor to join in the shoulder-to-shoulder movement for the intelligent promotion of the development of these great resources. Knowledge of these resources is all that is necessary to create confidence. It is for this reason that this newspaper presents below a brief review of Alberta's wealth and possibilities.

20 Years of Progress in Alberta

	1905	1925
TOTAL VALUE AGRICULTURAL PRODUCTS	\$20,000,000	\$256,000,000
WHEAT PRODUCTION	3,000,000 Bush.	103,000,000 Bush.
DAIRY PRODUCTS, VALUE	\$ 1,000,000	\$ 23,000,000
COAL PRODUCTION	931,000 Tons	5,800,000 Tons
MILES OF RAILWAY	1,000 Miles	4,800 Miles
POPULATION	200,000	640,000

AREA—254,000 square miles, twice as large as the British Isles, larger than France or Germany. Population 2.3 to the square mile, compared with 389 per square mile in the British Isles, 184 in France and 328 in Germany.

AGRICULTURAL LANDS—More than 60,000,000 acres of fertile lands capable of cultivation still untouched.

FREE HOMESTEADS—More than 15,000,000 acres of land still open for free entry.

IRRIGATION LANDS—One million acres new under irrigation, three million more capable of irrigation.

COAL—Largest coal resources of any similar area in the world. Alberta has 14 per cent. of the world's coal reserves; 72 per cent. of the British empire coal reserves and 87 per cent of Canada's reserves.

NATURAL GAS—Four large fields now operating, supplying four cities and several towns with gas fuel.

OIL—Two producing fields, one containing the richest producing oil well in the world, bringing in 15,000 barrels monthly of almost pure naptha, in the Turner Valley. In the Wainwright field wells producing 80 to 150 barrels a day crude petroleum, other wells promising. Other fields being developed.

TIMBER—60,000 square miles of merchantable timber, including 270,000,000 cords of pulpwood.

TAR SANDS—15,000 square miles of rich tar sands, suitable for paving material or oil extraction.

OTHER MINERALS—Include salt, bentonite, clay for ceramics, building stone, etc.

WATER POWER—Utilized and available estimated at 1,750,000 horse power.

FISHERIES—Extensive commercial fish possibilities. Annual production valued at \$400,000.

FURS AND GAME—Annual value furs and game over \$2,000,000.

TOURIST ATTRACTIONS—Three big mountain parks, including some of the most famous mountain resorts and scenery in the world.

This page is published by this newspaper as part of a united effort by the Alberta Press Association to place before the people of Alberta the strong fundamental position of this province, her progress to date, and the great possibilities for the future.

AN ALBERTA COAL MINE

Container For Iodine

Solidified iodine may now be obtained in a glass pencil-shaped container. The case is equipped with a small rod and on this the chemical is fastened so that the piece is used as a dabber and no bottle or cork is needed. This arrangement prevents spilling, and the holder, being of thick glass, will not break easily.

Fish Eggs Arrive in Free State

Canadian fish eggs recently sent for experimentation in European and Japanese waters have been received in the Irish Free State and Japan in a very satisfactory state, the department of marine and fisheries has been advised. Fifty thousand speckled trout eggs were forwarded to Japan from Vancouver.

Woman Enters Taxi Business

Miss Helen Jane O'Farrell Kelly, a twenty-seven-year-old Irish girl, who drove a British army motor lorry at the front during the war, and afterward was the first woman head of a company operating an independent fleet of omnibuses in London streets, has sold out to the bus trust, and is to enter the taxicab business.

Tips For Travelers in 1930

Travellers on English railroads in 1930 were well fortified with good advice before starting on a trip. Some of these sage bits included a caution not to sit in any unusual place or position, to avoid seats on the roof, and a warning that passengers in second-class carriages having no doors should avoid sticking their feet out.

Best Time For Shearing

As soon as the sheep's fleece becomes shaggy shearing should be provided for. This practice is good for the sheep, for the wool and for the pocket book. As soon as the sheep is shorn, she should be dipped and well dipped at that. The dipping should be repeated in ten days. Ticks are profit eaters.

PLEASED CUSTOMERS

are our best advertisement. We make it a point to satisfy. If we have not just what you want, we'll get it for you. Our stock of—

HARDWARE AND SUPPLIES

is extensive, large enough for almost every one, but you may want something special. You are, then, the one we want to satisfy particularly. We know we can do it.

THE MAIL BAG

PLEASED

Coleman, May 12th, 1926
The Editor, Coleman Journal,

Dear Sir:—

I read with pleasure your remarks in the issue of the Journal of May 6th, anent the zig zag methods of the School Trustees in securing efficient teachers, and I want to take this opportunity to deny that I am one of the combination that favors this system.

The average minimum rate of salary for the province of Alberta is, I understand, one thousand dollars a year, we pay eleven hundred are the people of Coleman so well off that they can afford to pay one hundred dollars above the average? Judging by the amount of tax arrears and the long spell of depression I should say no.

I find that in most towns they will not engage a teacher with less than two and in some cases three years experience, the girl leaving Normal is supposed to take a position in a rural school until she gains the required experience to engage in a town school. This means that she will have to begin on a much smaller salary, but in Coleman we take efficiency for granted and give them more than the average rate without any experience, and it is asking us too much to believe that all girls will make good teachers with just the training secured at Normal.

I am a firm believer in the education of the young, and I would certainly give my support to any policy striving to attain a maximum of efficiency, but let it be at a minimum of cost. I can't see where it does any good to pay more than is really necessary and I certainly think that all the salaries connected with the school management are out of all proportion to earnings of the rest of the townspeople. But for my part I should like to see this question of salaries put to a vote of the tax payers. I would suggest that the Board resign to a man and let the men who favor the higher salaries put up for re-election. If they are returned then there would be nothing more to say, but I think that the Ballot Box would reveal a different expression of opinion.

Yours truly,
J. S. Rogers.

DISPLEASED

Coleman, May 12th, 1926
The Editor, The Coleman Journal,

Dear Sir:—

I read in your issue of May 6, a rather biting article, stating that the Coleman School Board is guilty of paying higher salaries to school teachers than any other school in Alberta (which is rather a sweeping statement) and also you slyly hinted that they were not worth it. The following might interest you:

"The students of the Calgary and Camrose Normal schools have unanimously decided that the minimum salary for their services shall be \$1,000."

Contrary to public opinion, the teaching profession is not overcrowded, and all teachers in Alberta will be absorbed by October, so the students are in a position to claim this.

Please remember, teaching is a profession, and as one, is the poor est paid.

It is also evident that the esteemed editor of the most illustrious Journal, is unfamiliar with the working of the Alberta Normal schools, else he would know that only those with teaching ability ever graduate.

I hope you will publish this so that the people of Coleman may know that their school board is not as guilty of criminal extravagance as might be imagined.

Be it known that I am averse to gly digs at the efficiency of the Normal school.

Yours truly,
Jim Cousins,
Calgary Normal School.

Personal and Local.

Messrs. Geo. Pattinson and A. M. Morrison spent the week end in Calgary on business.

The Journal received word yesterday that the Rev. D. K. Allap had received a call from the United Church at Westlock, Alta., a short distance from Edmonton. Owing to Mr. Allan's absence from Coleman we were not able to learn whether he has accepted the call extended to him.

The budget passed the Dominion House with a majority of 13, the government's largest majority to date.

Card of Thanks

We wish to thank the people of Coleman for their sincere sympathy during our recent sad bereavement. Also to thank the people of Coleman, Bellevue, Macleod, Lethbridge and Springhill, for their many floral tributes, and the Masonic Order for their kind assistance.

Mrs. Foster and Family.

Speaking at the Canadian Daily Newspaper Association meeting at Toronto recently, E. W. Beatty, President of the C.P.R. said there is no class of worker more closely in touch with, or more soundly informed of, the problems of the country's industrial life than the railway and newspaper workers. Each was building up the country as he served the actual needs of the community. Mr. Beatty was impressed by the universal willingness of the Canadian press to get behind appeals that must be made to the public on behalf of works of charity, civic benefit and education.

"In Every Way—Better"

McLaughlin-Buick
Performance is Better

At zero, McLaughlin-Buick Automatic Heat Control means easy starting and smooth running immediately. In every temperature, this exclusive McLaughlin-Buick feature insures gasoline economy, automatically, and at all speeds. McLaughlin-Buick mechanical 4-wheel brakes make secure, footing that is insecure. From experience through winters and summers McLaughlin-Buicks have proved the all-year dependability of the McLaughlin-Buick type of brakes. Their direct, mechanical action is not affected by weather changes.

And not even a blizzard will harm the McLaughlin-Buick Valve-in-Head engine. Every point where metal would rub metal is lubricated under pressure. A flood of oil is forced everywhere, as soon as the engine starts. You will not find another car today, regardless of its price, with its performance so perfectly protected. Winter or summer, a McLaughlin-Buick is better!

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.
